beautifying the grounds. To Mr. Maddozk's surprise, he was informed that there would be no surplus funds remaining. The sum of \$200,000 was appropriated by congress for erecting a faderal building in Hav thy. After purchasing the ground for \$40,000, contracts for constructing the chifical were let as follows: Foundation, \$15.47.15; walls and roof, \$92,460; interior linish, \$34,436; heating, \$5,534; making a total of \$151,409,15. Essimating \$15.600 for grading grounds, plumbing, a total of \$151,409.15. Retimating \$15,000 for grading grounds, plumbing, superintendent's salary, etc., and there will still remain nearly \$24,000 to the credit of the fund. The above figures do not take into account the fact that nearly \$10,000 of the money paid for the ground upon which the building stands, was donated by citizens, which amount should be deducted from the above total. What has become of the balance of the fund is something of a mystery.
